

“We had a very tight timeframe – 3,000m<sup>2</sup> of office, laboratory and warehouse space in less than four months – which could have proved problematic for any company, but the project was completed within deadline because of Wilkore’s organisational skills, their attention to detail, strict quality control measures and unwavering commitment to motivate all subcontractors to the end. It was an incredible effort.”

- Dean Comrie, Managing Director, Ecowise Environmental

In late March 2006, Ecowise engaged Wilkore to provide them with a new Victorian Office and Laboratory facility. By May the design was complete. By September 2006 a new building shell with a footprint of over 3000m<sup>2</sup> and 920m<sup>2</sup> of Laboratory Fitout were completed, just in time to accommodate staff from their Richmond Facility. A build time of just four months!

The laboratory fitout included fumehood installation, gas and purified water reticulation, benching and data, to accommodate a wide range of highly sophisticated equipment.

## CLIENT

Ecowise, now ASL

## PROJECT VALUE

\$12M

## COMPLETION DATE

September 2006

## LOCATION

Caribbean Business Park, VIC

## PROJECT MANAGER

John Dunning

## SITE MANAGER

Travers Bulgin

## REFEREE

Dean Comrie
